

DURABLE LEAK-PROOF GEL PACKS

The perfect choice when a hardier gel pack is needed

TempAid Durable Gel Packs are encased in a thick, poly-nylon, PE/PA bag that resists puncture, and filled with a highly viscous gel. Together the product resists leaks, even if punctured.

The product is encased in a thick, puncture-resistant PE/PA film that has been pressure tested to handle a substantial amount of weight. Due to its durability, users can easily clean each unit for reuse.

FEATURES

- Sealed in a heavy-duty pouch that can be easily cleaned for re-use
- Can be molded prior to freezing
- Multiple sizes available, from 6 ounces to 80 ounces
- Can be used ambient, refrigerated, or frozen
- Great for use in any of our insulated shipper solutions
- Can be handled with bare hands
- Safe for air freight

APPLICATIONS

- Pharmaceuticals, tissue and blood samples
- Courier for home deliveries or long-haul flights.

SPECIFICATIONS

TempAid durable gel packs are readily available in different sizes or you can contact us for customized solutions based on your specific requirements or applications.

- PE/PA recyclable film
- Available in TempAid branded, custom branded, and plain white options

Volume	Bag Dimensions	Units/Case	Case/Pallet	Weight/Pallet (lbs)
6 Oz	4" x 6"	48	80	1550
